Number Is Considerably Less Than the 300 That Government Gone Into Service Without Waiting to Register.

One hundred and eighty-six young men of Norwich, Preston, Ledyard who have become 21 years of age during the past year from June 5, 1917, to June 5, 1918, registered on Wednesday at the local draft board rooms of the 10th district. The number that registered fell way below the humber of 300 estimated by the government officials, but this is in a way accounted for as those boys who are already in the United States service do not have to register.

Those in charge of the registering were Judge John M. Thayer, chairman of the local board, W. Tyler Olcott, Miss May Riordan, Alfred Allen, Fred G. Prothero. Rev. Joseph Carlevale and Vincent S. Blum acted as interpreters interpreters.

With the addition of the 186 new egistrants it is expected that Class of the selective service draft will be materially increased and that the total will be nearly two hundred, thus delaying the call for Class 2 men several months.

Very Effective Method for Banishing Hairs

At very little cost any worken can rid her face of heiry growths if she will use the delatone treatment. This is made by mixing some water with a little powdered delatone. This paste is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed, when every trace of hair will have vanished. No harm results from this treatment, but care should be used to have real delatone. should be used to buy real delatone.
